Islington  
London N7 9QH  
Tel: 020 7700 0888  
Fax: 020 7700 6676  
Email: London@mannandoverton.com

**To ensure the LTI Manufacturer's Warranty on your TX4 is maintained and kept valid for a full 3-years /100,000 miles\*, it is essential that you pay particular attention to the following information:**

### **Regular Servicing of your TX4**

- Your TX4 must be serviced at regular 10,000 mile intervals starting at 10,000 miles.
- Your vehicle must not be driven more than **500** miles past it's next due service interval. If you have the vehicle serviced early then your next service must be within 10,000 miles of the previous service.
- The Maintenance Service Record in your owners handbook must be stamped by the servicing garage, clearly dated and showing the mileage at which the service took place.
- The servicing garage must provide you with an LTI check sheet and a VAT invoice or receipt. These documents must be presented to you at the time the service was carried out and must never be in any way backdated.
- You must keep the VAT invoices/receipts safely with your other vehicle documents for at least the full duration of the vehicle's warranty period. Ideally all such documents should be kept for the life of the vehicle.
- The invoice for each service **must** show the following detail as a minimum:
  - The type of service carried out
  - The mileage
  - The full details of the LTI approved oils, fluids and lubricants used
  - The labour content
  - The description of the parts used together with their part numbers.
- Certain service items, such as the 30,000 miles brakes check, require an LTI approved computer print-out relating to the change of brake-fluid. You must ensure your servicing garage provides you with this print-out and ensure it is kept safely with all other servicing documents.
- The Maintenance Service Record book, VAT invoices, LTI check sheets and LTI brake-fluid change computer print-outs must be available for inspection when the vehicle is presented at Mann & Overton or your chosen LTI Approved service outlet for any work or investigation under warranty.

*Continued...*

LTI regularly update the service detail and schedules applicable to their vehicles. For this reason we highly recommend that you have your vehicle serviced and maintained with Mann & Overton or an approved LTI Service Agent, a list of which is supplied with your TX4 Owner's Handbook. Neither LTI Vehicles nor Mann & Overton can be held liable for any consequential loss caused by the use of inaccurate or out-of-date information by your chosen non LTI Approved servicing garage.

You are also advised that should you present your vehicle at Mann & Overton for the diagnosis of a potential fault which is found not to be valid under LTI warranty and you take your vehicle elsewhere for the subsequent repair, you will incur a charge for labour at our standard rate for the total time taken. This charge will be waived in full if your TX4 has been regularly serviced by, or you have the repair work carried by, Mann & Overton.

For periods ranging from one year/40,000 miles\* to three years/100,000 miles\*, Mann & Overton offer a variety of competitively priced service and maintenance packages which are available to purchase so ensuring your TX4 is properly protected. Where applicable, the price of your chosen maintenance package can be conveniently added to and spread across the term of your finance agreement. Please ask your Sales Executive for more information.

Please refer to pages i to vi of the Warranties and Service Care section in your owner's handbook for more detailed TX4 regular maintenance information.

**If these instructions are not followed then you will invalidate the warranty on your TX4**

**This information is issued for your guidance and does not affect your statutory rights**
